|--------------------|--|
| Objective          | A recent graduate with a focus on Python and Django development, aiming to launch a career in full-stack development. Seeking a challenging role where I can apply my technical skills, learn from industry experts, and play a vital role in creating web solutions that deliver value to end-users.  |
| Skills & Abilities | I possess a strong set of technical skills, including proficiency in programming languages such as Python, web development with Django, and front-end technologies. Additionally, I have a solid understanding of database management and a knack for problem-solving. Alongside my technical abilities, I excel in effective communication, teamwork, and adaptability, enabling me to collaborate seamlessly in a dynamic work environment and contribute to the successful development of web applications.   |
| Projects           | <div><div>AI Security System Project</div><ul style="list-style-type: none"><li><b>Project Description:</b> Developed an AI-based security system that utilizes computer vision and machine learning algorithms to detect and prevent unauthorized access. This system enhanced security measures by automatically recognizing and alerting in real-time any suspicious activities.</li><li><b>Technologies Used:</b> Python, OpenCV, TensorFlow, Machine Learning</li></ul></div> <div><div>Project Management Web App</div><ul style="list-style-type: none"><li><b>Project Description:</b> Created a web-based <a href="#">project</a> management application using the Django framework. The app streamlined project planning, task assignment, and progress tracking, resulting in improved team collaboration and project efficiency.</li><li><b>Technologies Used:</b> Python, Django, HTML/CSS, Admin panel</li></ul></div> |
| Education          | <p><b>University of Calicut – Kerala – Bachelor of Computer applications</b><br/>2020-2023</p> <p>I successfully completed my Bachelor of Computer Applications (BCA) with a commendable 6.8 CGPA. Throughout the course, I gained a strong foundation in various aspects of computer science, including programming, software development, database management, and information technology.</p> <p><b>12<sup>th</sup> Grade – Kerala – Computer Science</b><br/>2018-2020</p> <p>I am successfully completed my computer science course with a CGPA of 6.8.</p>   |
