[Portfolio](#) 

I'm a recent graduate with a focus on Python and Django development, aiming to launch a career in full-stack development. Seeking a challenging role where I can apply my technical skills, learn from industry experts, and play a vital role in creating web solutions that deliver value to end- users.

Skills

- HTML5, CSS3, BOOTSTRAP5
- Python, Django, Deluge Scripting
- Git, GitHub, Visual Studio Code
- PostgreSQL, MySQL

Internship

NOV 7 – FEB 10

Python Full Stack Developer / Shiash Info Solutions, Sholinganallur, Chennai

As a Python Full Stack Developer Intern, you will have the opportunity to work on exciting projects that involve both front-end and back-end development.

Education

MARCH 2023

Bachelor of Computer Applications / University Of Calicut, Malappuram

CGPA : 5.2

MARCH 2020

Computer Science / Sree Sankara Oriental HSS, Lekkidi, Palakkad

CGPA : 6.8

Projects

I AI Security System Project (UG Project)

- **Project Description:** Developed an Ai-based security system that utilizes computer vision and machine learning algorithms to detect and prevent unauthorized access. This system enhanced security measures by automatically recognizing and alerting in real-time any suspicious activities.
- **Technologies Used:** face_recognition, cv2 (OpenCV), playsound, gtts (Google Text-to-Speech), and smtplib libraries, Python.
- **GitHub Repository:** [AI Security System](#)

II Django Project Management Web App

- **Project Description:** Created a web-based project management application using the Django framework. The app streamlined project planning, task assignment, and progress tracking, resulting in improved team

collaboration and project efficiency.

- **Technologies Used:** Python, Django, HTML5, CSS3, Admin panel.
- **GitHub Repository:** [Project Manager](#)

III Django E-commerce Website

- **Description:** Developed a fully functional e-commerce website using Django framework, allowing users to browse products, add them to cart, and securely checkout. Implemented user authentication, product categorization, and payment processing using Stripe API.
- **Technologies Used:** Python, Django, HTML5, CSS3, JavaScript, Bootstrap, SQLite.
- **GitHub Repository:** [E-commerce](#)

Certifications

Artificial Intelligence - SkillVertux

JAN 2023

Python Full Stack Development – Shiash Info Solutions

FEB 2024

Technical Skills

Operating System : MS Windows, Mac OS

Software Tool : Git & GitHub, Visual Studio Code

Programing Language : Python

Database : PostgreSQL, MySQL
